

## How to become a full member of ECHAMP?

- ECHAMP offers a full membership to pharmaceutical companies, which have been founded according to the laws of a member state of the European Union. They have to operate in the production and/or in distribution of homeopathic and anthroposophic medicinal products. Their registered home office and their main residence must be located in one of the member states of the EU. New members have to assure their full compliance with the goals of ECHAMP laid in the [Articles of Association](#).
  
- The 25 founder members of ECHAMP signed the Articles of Association in order to form a European Economic Interest Grouping (E.E.I.G.), which is registered according to the laws of Belgium. By adopting these Articles of Association the members of E.E.I.G. mutually commit themselves to promote the achievements of the objectives set forward in the Preamble and Article 2 thereof.
